

**TO BRING AN INNOVATIVE AND SMART APPROACH TO MANAGE YOUR DENTISTRY AND ADD VALUES TO YOUR PRACTICE**

**Got messy with Client's Appointment?**

**Looking for better Customer Management to Boost your service level?**

**Forget to purchase Dental supplies?**

**Is there any cost-effective Hardware to increase Efficiency and Accuracy?**

### **Harnessing the power of today's dental technologies**

SMaRTz Dentist puts you in command of the dental software technologies that are an essential element of your strategy for successful dentistry. SMaRTz Dentist provides more than dynamic patient profiling. It's also your gateway to advanced data management. SMaRTz Dentist gives you more possible features which mean more value to you and your practice.

SMaRTz Dentist is a manifesto for the future growth of your clinic automation. Regardless of the practice size or the computer literacy of the staff, SMaRTz Dentist has the capability to get you started or move you to the next level.

### **Equipment Maintenance**

SMaRTz Dentist provides fixed asset & maintenance management of dental equipments, accessories and office supplies. All Equipment's maintenance status is just one click away.

Maintenance or purchase (of dental supplies) reminder will pop up automatically to allow you to better manage your clinic's resources.

### **Appointment Scheduler**

SMaRTz Dentist provides dynamic Customer Relationship Management (CRM) capabilities through the Appointment Scheduler, allowing you to schedule and track critical patient contacts. Appointment Scheduler automatically compiles a list of recalls during the business day. In addition, the Scheduler can check your staff's duty status.

### **Email Capabilities**

SMaRTz Dentist automatically sends emails and ensures that important follow-ups don't fall through the cracks.

### **Integrating with Barcode Technologies**

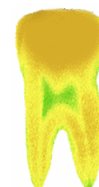

Barcode Technology has been around for over 20 years and is penetrating to every level of the business environment. Without doubt, its ubiquitous appearance reflects of its greater benefits that bring to us.

So, we highly recommend of this convenient and highly reliable technology – Barcode - Use it in your dental office to allow drastic increase of performance on data capture and also your professional image.

### **Why use barcodes?**

- They ensure error-free entry of user ID
- They speed up stock cataloging, registration of users and check-in/out
- To provide a total solution, we provide barcode reader that you may see in shops
- The barcode reader simply plugs in between your PC and the keyboard
- To scan in a barcode, you just place the head of the barcode reader over it and press the trigger. The reader translates the barcode into an item number or user ID

## **SMaRTz Dentist's Value-Added Features:**
